FIND THAT DEATH

Try these tips if you can't find the demise of an ancestor listed in the indexes

TIP1

After 1866, the age of the deceased is recorded in the indexes so it will help to have pinpointed their date of birth before searching for a death.

TIP₂

Not sure of the year of death? Try narrowing down your search using other records such as the census.

TIP 3

A death might not have taken place in the town – or even country – where they lived, so hunt further afield. Don't forget to search the overseas death indexes.

TIP 4

If an inquest was held, the death might have been registered some time later, so widen your search.

TIP 5

The name you know your ancestor by might not be the one that appears on their death certificate. Try searching using their middle names, for example.
